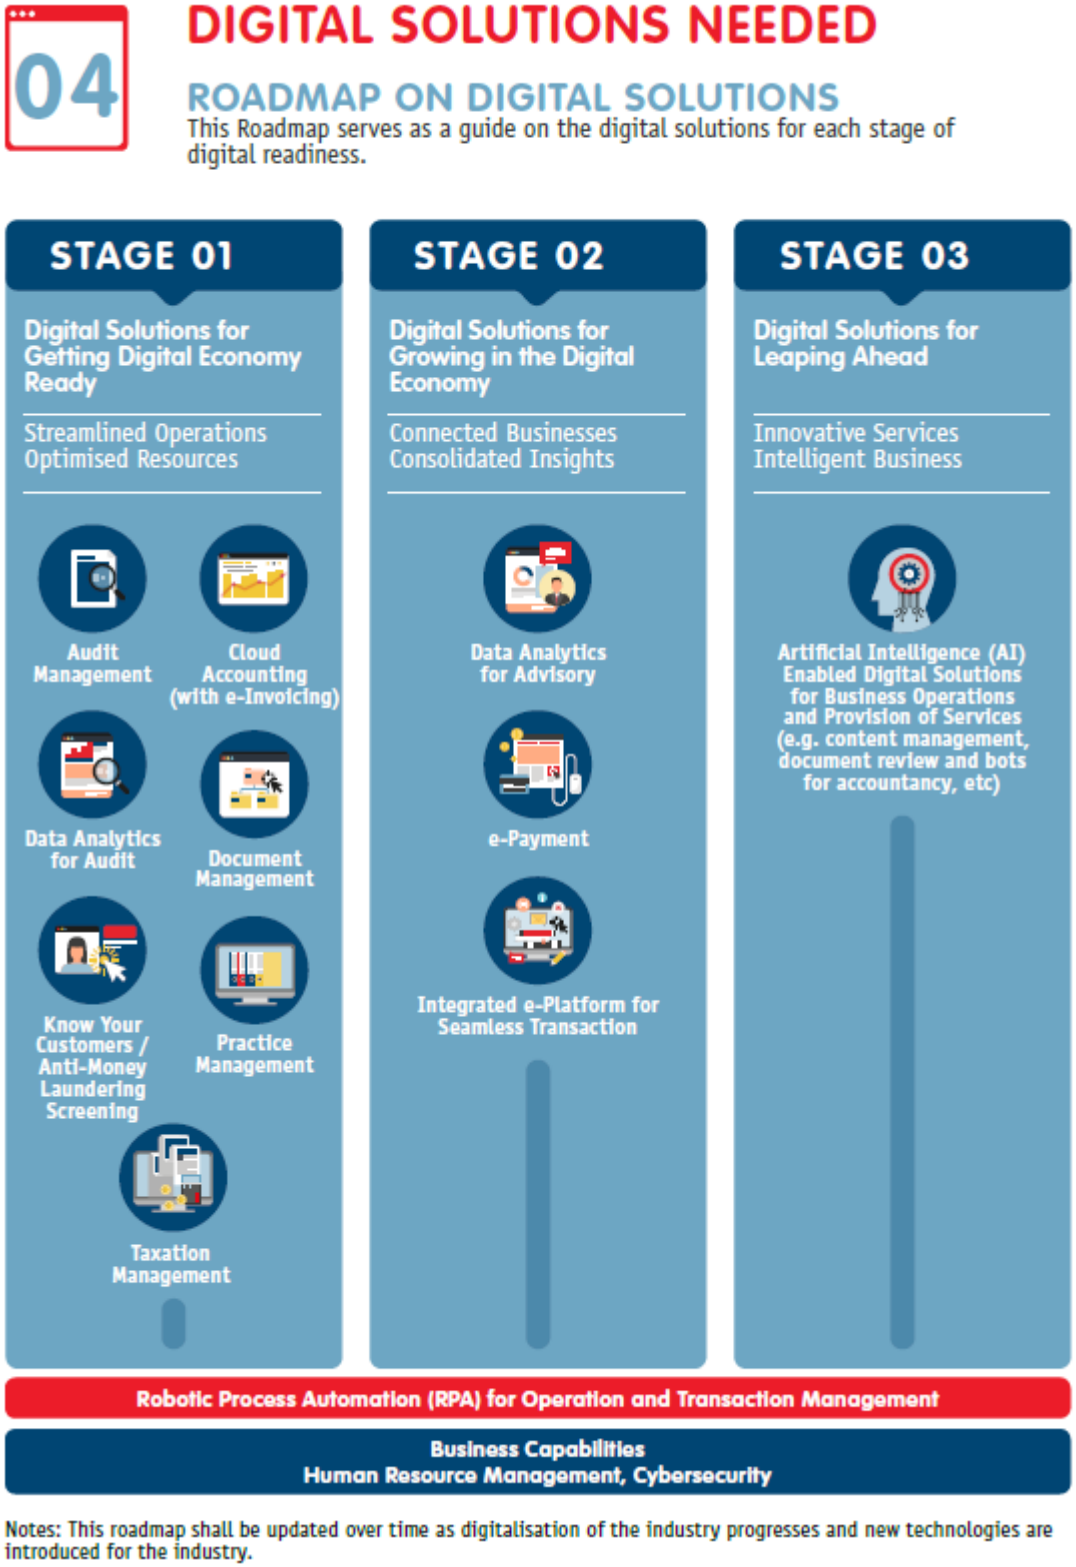
Annex 2

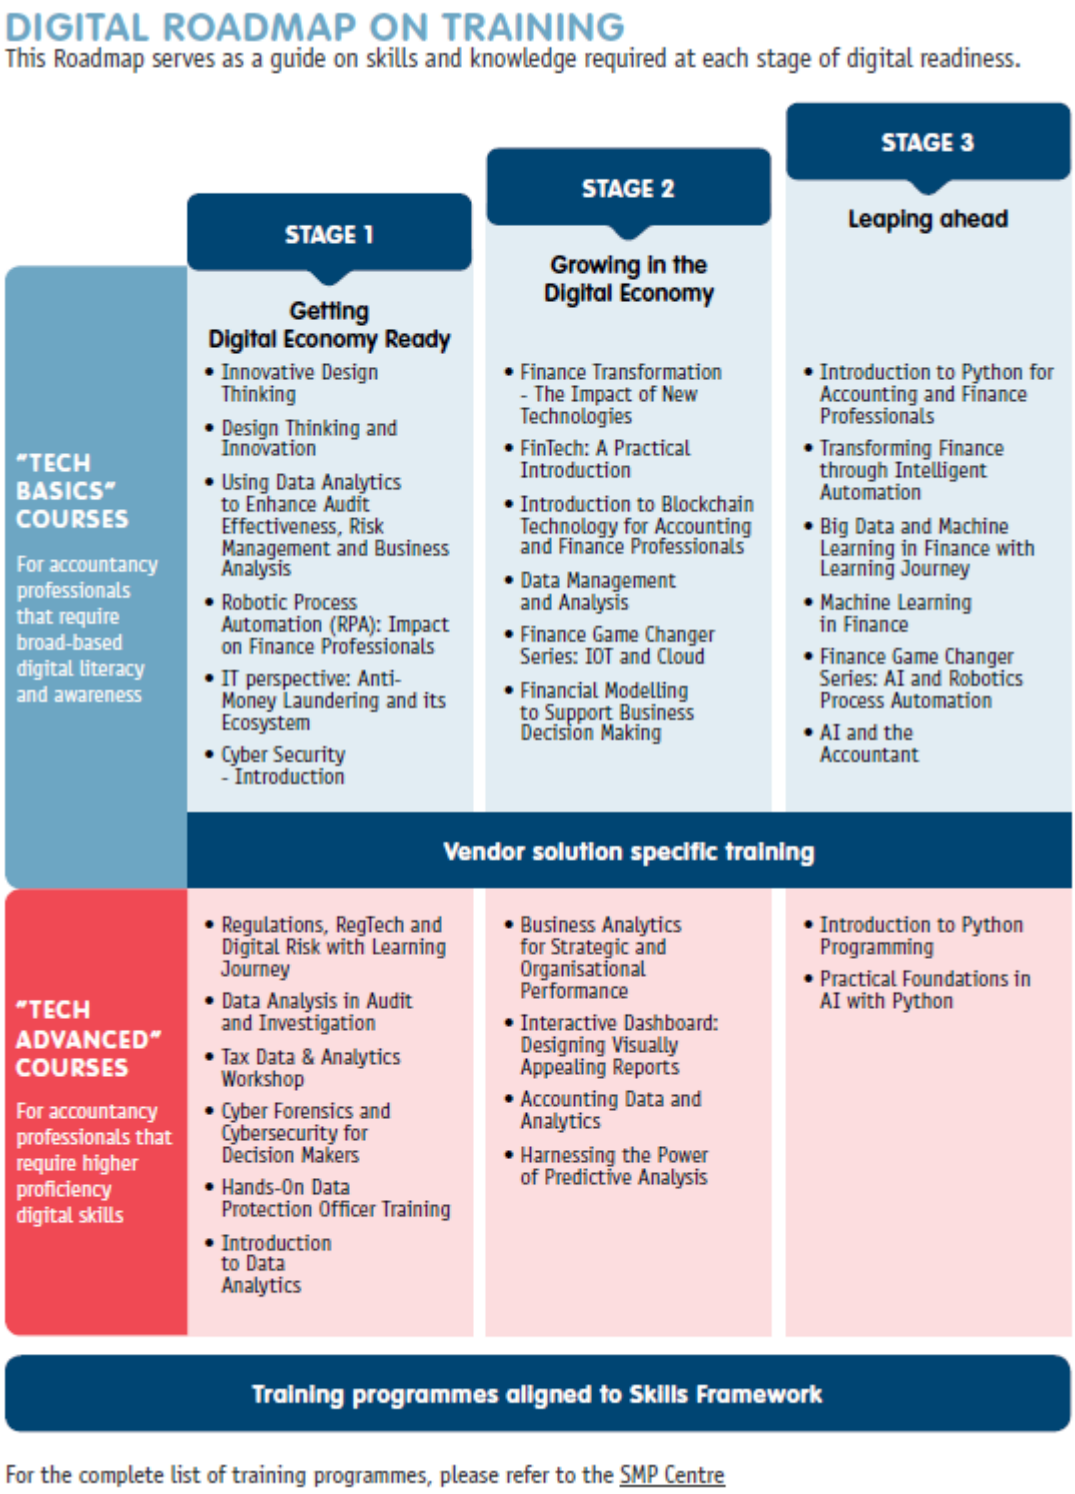
Roadmap on Digital Solutions & Training

The Digital Roadmap of the IDP charts out the solutions that SMPs can adopt based on their digital readiness. The digital roadmap will be updated over time as the industry progresses and newer, more relevant technologies are introduced.



Notes: This roadmap shall be updated over time as digitalisation of the industry progresses and new technologies are introduced for the industry.

The IDP also includes a Digital Roadmap on Training to ensure that the industry's workforce is adequately prepared with the necessary skills to adopt digital solutions, and is ready for changes that come with digital transformation.



SMPs can also use the online self-assessment checklist to assess their digital readiness and identify opportunities to go digital based on their current business operations, level of digitalisation and business expansion plans.
