

## Annex A: TradeXchange® VAS Services Provided By the Six Companies

	Lead Consortium	Consortium Members	Project Title	VAS Services
1	AEB (Asia Pacific) Pte Ltd	-	ASSIST4TX	With TradeXchange, AEB is able to provide solutions to help the trade community with its supply chain and freight cost management operations. This includes integration of the shippers' backend systems with the unique interfaces of the Couriers and Logistics Service Providers (LSPs) as well as to reduce the hassle of manually matching freight cost against contracted rates through a centralised repository.
2	CrimsonLogic eTrade Services Pte Ltd	eTrek Solutions Pte Ltd	Trade Finance Collaboration	By collaborating on TradeXchange, CL eTrade and eTrek Solutions will be able to facilitate the trading community in the preparation and consolidation of Trade Finance documents such as Bill of Lading, Certificate of Insurance, Freight Invoice and Certificate of Origin. By leveraging on TradeXchange's Title Registry technologies, the consortium will also help banks reduce paper work for Trade Finance processing by offering services like authentication of documents such as the Bill of Lading. End-users will also be able to leverage on the electronic Title Registry for secured registration and transfer of the Title to goods and to allow secured access to the Title record as needed in the entire export/import trade process.
3	Cyberlog Technologies International Pte Ltd	-	Cyber-Stream	Through Cyberlog SCMLOG product integration with TradeXchange, Cyberlog intends to offer an integrated logistics solution for their customers to include: <ul style="list-style-type: none"> <li>- Overseas Highway Manifest Submission to send advanced manifest data electronically to overseas countries like USA, Canada and Australia to meet these countries' regulatory requirements</li> <li>- Shipping Line Linkages to connect to shipping portals like INTRRA and GT Nexus for vessel schedules, carrier bookings, shipping instructions &amp; track and trace status</li> <li>- Inter-Modal Services to check vessels and flight schedules and status electronically with Portnet and the Cargo Community</li> </ul>

				Network (CCN)
4	Gridnode Pte Ltd	1) Beyonics International Ltd 2) Intel Technology Asia Pte Ltd 3) Teck Hai Chemicals Pte Ltd	GridExchange – Supply Chain Orchestrator	Gridnode and their consortium members will provide the following services on TradeXchange: <ul style="list-style-type: none"> <li>○ Trade Declaration Services to enable end-users to access trade declaration services for trade declaration submissions and permit information</li> <li>○ Rosettanet Automated Enablement (RAE) to connect manufacturers to their suppliers for the exchange of commercial documents such as packing lists and invoices via TradeXchange</li> <li>○ Shipping Line Linkages to connect to shipping portals like INTRRA and GT Nexus for vessel schedules, carrier bookings, shipping instructions &amp; track and trace status</li> <li>○ Overseas Highway Customs Clearance to allow users to send data online conveniently for customs clearance to countries like Malaysia, Australia and Hong Kong</li> </ul>
