## 1. INTRODUCTION

- 1.1 As part of advancing Singapore's digital economy as a trusted data hub that supports competition and innovation as well as the cross-border flow of data, the IMDA has launched the Data Protection Trustmark (DPTM) Certification to help organisations demonstrate accountable and responsible data protection practices.
- 1.2 The DPTM establishes a robust data governance standard to help businesses increase their competitive advantage and build trust with their clients.
- 1.3 The key objectives of the DPTM scheme are:
- for organisations to demonstrate sound and accountable data protection practices;
  - to provide a competitive advantage for businesses that are certified;
  - to boost consumer confidence in organisations' management of personal data; and
  - to enhance and promote consistency in data protection standards across all sectors.
- 1.4 DPTM will benefit businesses in the following ways:
- a. Increases Business Competitiveness**
- Obtaining DPTM certification demonstrates to customers that an organisation has robust data protection policies and practices in place to safeguard their personal data. This will help strengthen its reputation, build trust and foster confidence in the business, raising its competitiveness both locally and overseas.
- b. Provides Assurance to Your Organisation**
- Third-party certification helps to provide validation of an organisation's data protection practices. The certification will increase its data governance and protection standards, uncover potential weaknesses and enable the organisation to take steps to mitigate risks.
- 1.5 DPTM is a voluntary enterprise wide certification looking at the organisation's standard of data protection policies, processes and practises. Certification is valid for 3 years and organisations would need to reapply for re-certification at least 6 months from the date of expiry of the certification.
- 1.6 The organisation must promptly notify IMDA of any Significant Change that arises during the certification period. A review may be conducted pursuant to the Significant Change and the organisation may be required to carry out any necessary corrective action or the certification may be terminated. More details on Significant Changes are set out in Section 10 below.

### DPTM Assessment Body

- 1.7 The Assessment Body (AB) acts as an independent body to assess that an organisation’s data protection practices conform to the DPTM requirements, and to highlight gaps for the organisation to address, if any.
- 1.8 An organisation may select any of the following five ABs – BSI Group Singapore Pte Ltd, EPI Certification Pte Ltd, ISOCert Pte Ltd, Setsco Services Pte Ltd and TUV SUD PSB Pte Ltd.

## Support for Organisations

### **Funding support for Singapore companies:**

- 1.9 Singapore companies can consider applying to Enterprise Development Grant (EDG) to seek support for some of the costs for DPTM certification and consultancy services. Companies are subjected to the prevailing criteria of EDG to qualify for funding support. All applications will be assessed by Enterprise Singapore (ESG) based on project scope, project outcomes and competency of service provider.
- 1.10 For more information on the EDG and how to apply, please visit ESG's website at <https://www.enterprisesg.gov.sg/financial-assistance/grants/for-local-companies/enterprise-development-grant/apply/pre-application>.

To help companies during this COVID-19 situation, the maximum support level will be raised from 70% to 80% till 30 September 2021.

### **Funding support for Social Service Organisations:**

- 1.11 IMDA has partnered with the National Council of Social Services (NCSS) to provide funding support to social service organisations (SSO) for their DPTM certification through the NCSS Organisational Development Grant (ODG).
- 1.12 SSOs who are (1) NCSS members, or (2) MSF-funded, can apply for the ODG online via NCSS' Funds Application System (FAS). For more details on the ODG and access to the FAS, SSOs can visit NCSS' website at <https://www.ncss.gov.sg/Grants-Search/VCF-ODG-Organisational-Development>.

### **Professional Consultancy Services:**

- 1.13 Prior to applying for the DPTM certification, an organisation may wish to engage professional consultancy services to prepare them for DPTM certification. The IMDA's list of Data Protection Service Providers provides a basic directory of the data protection services available in Singapore (<http://www.imda.gov.sg/dpaas>). To be eligible for EDG funding, the applicant organisation needs to ensure that the selected provider is an approved CQI consultant (*List of certified management consultants can be found at <https://www.enterprisesg.gov.sg/financial-assistance/grants/for-local-companies/enterprise-development-grant/apply/consultant-quality-initiative/overview>*).

### DPTM Certification Checklist

5.4 The DPTM Certification Checklist aims to provide Applicant Organisations with an understanding of their readiness for the DPTM certification. Having a “yes” answer to all the questions is an indication that an organisation is ready and can apply for DPTM. Note that answering “yes” to all questions may not necessarily equate to meeting all the certification requirements.

5.5 The assessment will also require the Applicant Organisation to demonstrate and provide evidence for the followings:

- Documented data protection policies and processes
- Demonstrate that data protection policies and processes are implemented and practised on the ground.
