ENGLISH SERIES

Title	Frequency	Launch	Synopsis
Heroes Among Us Season II (10 episodes)	Fortnightly	May	This is a returning program. The show features Singaporeans who help the community here or in the region or have overcome challenges in their life and come good. Through the profiles, we see the different communities here and in the region that need our help. We see the different adversities that people have to overcome, sometimes taking an almost superhuman effort to do so.
Living City Season II (8 episodes)	Fortnightly	May	This is a returning program. Living City is a multi-part web series which explores the relationships between Singaporeans and the spaces they dwell in. Each episode takes the viewer to little-known spaces in Singapore through the eyes of one narrator as he/she speaks about how the place has influenced his/her life.
ST Sessions Season IV (8 episodes)	Fortnightly	May	This is a returning program. In the new season, ST Sessions will shed its studio settings and take viewers out on the road with the musical acts. Cameras will be embedded with the musicians as they prepare for a live gig - enabling viewers to experience the pre-show rituals, the potential disasters, and the energy from a live show.
Made in Singapore (8 episodes)	Fortnightly	July	In a world filled with manufactured, similar goods, this program features the spirit of craftsmanship through young, enterprising Singaporeans who continue the practice in making handmade products. The show aims to celebrate local artisans who desire to make their mark on the world by crafting something of their own.
A Day in the Kitchen (6 episodes)	Fortnightly	August	The series will showcase how dishes from various cuisines are prepared, as well as the traditions, stories and customs behind them. It will take viewers behind the scenes of a working kitchen and the chef's daily routine. Every episode will also showcase a little bit of background of the dish/chef to help viewers better understand how certain foods are created, and their heritage or philosophy behind it.

Smart City (6 episodes)	Fortnightly	August	Key areas of Singapore's Smart Nation push include e-payment, digital identity and a national sensor system. This program will look at these nation-wide efforts, as well as more day-to-day initiatives like the recently released parking app, and autonomous vehicles.
Singapore Works (6 episodes)	Fortnightly	November	Each episode will feature one aspect of Singapore's infrastructure that we do not usually think about. The episode will be accompanied with explanations on how these infrastructure function and feature those who work tirelessly to keep Singapore ticking.
SME Focus (6 episodes)	Fortnightly	November	The show features startups - how the company started, what they do, how the corporate culture developed etc. Each episode will feature a startup from one industry. This would be presenter based, with interviews as well as product demos to engage the audience.

MANDARIN SERIES

Title	Frequency	Launch	Synopsis
Live Your Dream Season II 完成一个梦第 2 季 (7 episodes)	Weekly	May	After a highly successful Season One, host Ken Low Yong Kian (CMG NewsHub Correspondent) returns to front the Part Two series where he continues to fulfil dreams of people from all walks of life across seven episodes. This well-received programme promises to bring you more tears and laughter as we celebrate the value of realising every individual dream no matter how small it may be. All episodes come with English subtitles.
Ah Boy and Friends 阿 Boy 和伙伴们 (9 episodes)	Fortnightly	June	Ah Boy, an original character created and made popular by his light-hearted and educational introduction of the Chinese culture, is now venturing into other cultures. In this 9-part Mandarin animation series, Ah Boy together with his family and friends will introduce viewers to different aspects of the Malay, Indian and Eurasian cultures, providing an entertaining and enriching viewing experience for young and old alike. All episodes come with English subtitles.
You Do What? 你做哪行? (7 episodes)	Fortnightly	August	As technology advances, there are increasingly more jobs that are non-existent in the past and those that withstand the test of time. Follow us across the land, under the water and (perhaps) into the sky, as we show you occupations unfamiliar to many. All episodes come with English subtitles.
Sing! Singapore 乐听越新鲜 (7 episodes)	Monthly	September	A never-seen-before online to offline seven-part music reality show where young budding local musicians are paired with veterans to embark on a musical journey of coaching, collaboration and co-creation. Viewers get to be active participants as they play judge in the online audition process, enjoy real-time interaction during the live webcast of the finale performance, and even stand a chance to be invited to watch the performance in an exclusive venue. This mega production promises to give audiences a dazzling time and a new way to experience music.
Mission: SG 大使“新”任务	Fortnightly	October	Singapore as a cosmopolitan city-state stresses on the importance of maintaining good relationships with all countries big or

(7 episodes)			small.
The Grand Challenge 祖孙 PK 大挑战! (5 episodes)	Fortnightly	November	This is a 5-part Mandarin series, with each episode featuring one grandchild-grandparent pair on a mission to complete a specific task. The gameshow-like format seeks to explore the inter-generational dynamics and foster bonding in the process, and promises to bring audience on a heartwarming fun-filled journey. All episodes come with English subtitles.

BILINGUAL SERIES

Title	Frequency	Launch	Synopsis
Finding the Red Dot (13 episodes)	Fortnightly	August	Children will learn about the history, legends and stories of Singapore through the eye of a cub reporter (young children aged 10-12 years old). The cub reporter will go around Singapore to learn and explore the history and legends behind every buildings and landmarks. Through narration and discovery, children will be more appreciative of what they have today and they will have a better understanding of Singapore's past and present.
Past Present Future 过去, 现在, 未来 (9 episodes)	Weekly	February 2019	"Past Present Future" 《过去, 现在, 未来》 aims to educate kids in the 21st century with earlier (may be no longer applicable or outdated) forms of technology and how they have advanced in present day, as well as imagine how they may continue to evolve in the future. The programme aims to enable children to explore, learn and research amongst themselves.
