

APPENDIX I — PARTNERS' QUOTES

“aZaaS is excited to bring Nebulogy, our business process and intelligent data platform as a service to Chongqing and its community for their journey to go digital.”

— Tan Choon Ngee, group CEO, aZaaS

“The Chongqing Connectivity Initiative (CCI) will catalyse Western China’s trade with ASEAN, and provides opportunities for Singapore companies to profit from this trade. Our data and analytics solutions can help Chinese companies and their Singapore partners, and we hope to connect with potential business partners and customers through this trip.” — Daryl Neo, co-founder, Handshakes

“As a company that bridges the Gig Economy with technology and active in helping SMES to expand overseas, especially in South-east Asia, ZomWork is honoured to play a part in the first Smart China Expo. We look forward to meeting and exchanging ideas with international industry leaders.” — Jason Teo, general manager, ZomWork

“We seek distribution and OEM partners for our products in China.” — Sharon Teo, managing director, Inspire-Tech

“We look forward to strengthening ties within the Chinese community as part of this special delegation with the IMDA. The Smart China Expo is the perfect occasion to demonstrate our platform for enterprise use-cases, and we are confident that the solutions offered will be able to both empower the economy and enrich lives.” — Mike Davie, founder & CEO, DataStreamX

“Vi Dimensions hopes that our participation in the Smart China Expo and the inauguration of our partnership with iSoftStone, a leading China software/IT service provider, will allow us to bundle ARVAS, our Abnormality Detection product, with

their smart city platform to offer a unique and comprehensive surveillance solution.”

— Lim Khing Tat, VP, Sales & Marketing, Vi Dimensions Pte Ltd

“These are very exciting times, where a lot of new innovative technologies can bring about positive transformation for businesses and their supply chain. Since Y3 already has a strong presence in China, we look forward to connecting with both partners and potential clients during the event to explore how these new technologies can help them to further advance their supply chain management and value-added services.” — Gabriel Tho, chief operating officer, Y3

“China is a huge market for technology companies and one that we shouldn’t ignore. We hope to better understand the opportunities available in China, and how Singapore start-ups such as Glints can tap on them to grow our business further.” — Oswald Yeo, CEO, Glints
