

Digital Leaders in Emerging Tech Pilot

Strengthening Enterprise Competencies in Executing Emerging Tech Projects

How Does The Pilot Work?

- Enterprise to indicate interest to participate
- IMDA validates enterprise's eligibility to participate and use case
If eligible, Accenture & enterprise to form a 4-person digital team each.
- Accenture conducts a 2-day kick-off workshop
Showcase possibilities of the selected emerging tech, conduct use-case refinement, sprint planning & user story prioritisation.
- Enterprise participates in a 4-week tech sprint with Accenture

- Enterprise's takeaway upon completion of tech sprint:
 -  **Early-Stage MVP/Prototype**
Provides foundation for enterprises to build on
 -  **Product Development Plan**
Customised product & sprint backlog
 -  **Final Report**
Summary of project execution guidance & development process
- Enterprise provides a post-tech sprint report
Reflection of key learning outcomes

Eligibility Criteria

- Singapore-registered companies with at least 30% local shareholding
- Have a plan & interest to use emerging tech as part of digital solutioning
- Have an internal digital team that can execute the solution development and participate in the tech sprint
