

## DIGITAL FOR LIFE FUND FAQs (For non-profit organisations only)

### 1. What is Digital for Life Fund?

The Digital for Life Fund is established as the flagship fund as part of the Digital for Life movement. It provides an avenue for those who are keen to contribute financially to the Digital for Life cause. All donations received will be matched dollar-for-dollar by the Government.

The donations will be used to support community projects as part of the Digital for Life movement, as well as co-payments of more needy beneficiaries under IMDA's Digital Access Programme.

### 2. What is the impetus for setting up the Digital for Life Fund?

COVID-19 has disrupted Singaporeans' daily lives and made evident the importance of closing the digital gap, especially among low-income families with school-going children and seniors. During the COVID-19 period, we have seen growing public and industry interest to contribute to such a cause. To harness this interest, the Digital for Life Fund is set up as an avenue for those who are keen to contribute financially to the digital inclusion cause. The funds raised will support 3P efforts and ground-up initiatives as part of the Digital for Life movement.
