

Providing revolutionary Simultaneous Localization & Mapping (SLAM) robotic sensor solutions

EFFICIENT & RELIABLE MARKET SOLUTIONS FOR INTELLIGENT ROBOT INDUSTRY

Provider of intelligent mobile robots, autonomous driving vehicles, industrial automation & metaverse applications.

LOW-COST, HIGH PERFORMANCE RPLIDAR SERIES WITH 2D LASER SCANNERS

Maps & localizes navigation systems. Real-time scanning, ideal for drones, robotic vacuum cleaners & mobile robots.

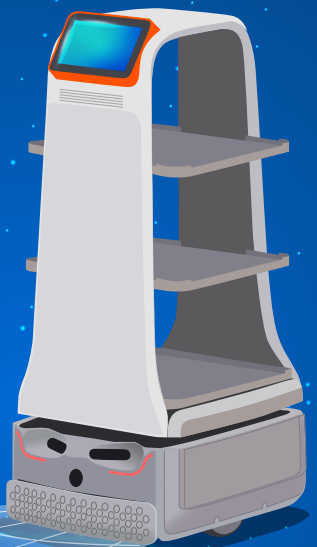

PRODUCT INTEGRATION INTO DIFFERENT PLATFORMS WITH SOFTWARE DEVELOPMENT KITS (SDKS)

Libraries, APIs, & documentation for development of custom applications & algorithms for navigation & mapping.

TIMELY & METICULOUS PRE- & AFTER-SALES, AND MAINTENANCE RESPONSE GLOBALLY

HQ in Shanghai, offices & operation centres in Singapore & Shenzhen, self-built factories in Nantong & Yancheng.

Over **600,000**
products in over
40 countries worldwide!

Ideal for precise mapping & navigation in

- Warehouses & Factories • Hotels, Restaurants & Retail Spaces
- Cleaning & Maintenance • Agriculture • Surveying, Inspection & Terrain Mapping
- Robotics & R&D • Autonomous Vehicles & Automation Industries
- AI • Companies with manpower shortage/seeking efficiency
