

ANNEX B

QUOTES FROM PAST WINNERS OF NATIONAL INFOCOMM AWARDS

PictureWorks Pte Ltd, winner of Most Innovative Use of Infocomm Technology (Pte Sector- SMEs) 2008

"The Awards has given strong recognition to Pictureworks' solutions and hence confidence for our customers. It has further helped us to leverage on Singapore's reputation around the world, for its innovation and technologies. Pictureworks has now expanded to Australia, China and Malaysia."

- *Cheong Chia Chou, CEO of Pictureworks*

BuzzCity Pte Ltd, winner of Most Innovative Product/Service 2008

"Winning NIA 2008 was a great milestone for BuzzCity. It validated the great work and dedication that our team members have put in over the years, and gave us greater confidence in moving forward. Capitalizing on the innovative and "can-do" spirit that NIA symbolizes, BuzzCity has significantly expanded our mobile ad network in South Africa, India, Western Europe and the US to become a major global player."

- *Dr Lai Kok Fung, CEO of BuzzCity Pte Ltd*

YCH Group, winner of Most Innovative Use of Infocomm Technology (Pte Sector – General) 2008

"At YCH, we strongly believe that infocomm not only complements our business, but is an essential part of it. As a strategic enabler, not only has the innovative implementation of the Supply Chain Management nerve centre effectively helped to increase scalability for YCH, the innovation also offers real-time, end-to-end visibility of the entire supply chain to enable YCH's clients to enhance their internal efficiencies and improve their products' speed-to-market."

- *Mr James Loo, CIO, YCH Group*

Advanced Network Laboratories Pte Ltd, winner of Most Innovative Infocomm Product/Service 2008

"The Award was significant to ANTI labs as it gave our product recognition after our company has spent many years of investing in R&D and coming up with innovative solutions. NIA has given ANTI labs a higher profile in the IT industry and also the chance to participate in nation-wide projects like the Next Generation Nationwide Broadband Network, and expansion of Wireless@SG."

- *Mr Ang Kwang-Tat, Co-Founder, ANTI labs*
