## **SCHEDULE 4B**

### **SUBMARINE CABLE CONNECTION SERVICE**

#### **1. SCOPE**

- 1.1 This Schedule sets out the terms and conditions under which SingTel will provide the Requesting Licensee with the Connection Service and on which the Requesting Licensee may access or use the Connection Service.
- 1.2 The Connection Service is a service provided by SingTel to the Requesting Licensee for implementing, establishing and maintaining a connection between:
- (a) the Requesting Licensee's Co-Location Equipment located at the Co-Location Space at the Submarine Cable Landing Station; and
  - (b) the Cable System,
- for the sole purpose of accessing cable capacity on the Cable System in accordance with clause 1.3.
- 1.3 SingTel shall provide the Connection Service to the Requesting Licensee solely for the purposes of enabling the Requesting Licensee to:
- (a) access its own cable capacity on the Cable System; and/or
  - (b) access the cable capacity of any Third Party (including, but not limited to, another licensee) on the Cable System for the purpose of providing a competitive backhaul service to that Third Party.
- 1.4 For the avoidance of doubt, the provision of Co-Location Space and physical access thereto at a Submarine Cable Landing Station is not covered in this Schedule. The Requesting Licensee must acquire Co-Location at a Submarine Cable Landing Station in accordance with Schedule 8D of this RIO Agreement.
- 1.5 This Schedule only applies to Requesting Licensees who are FBOs.
- 1.6 (a) The timeframes in this Schedule relating to the provision of the Connection Service, capacity activation and link activation are subject to delays caused by

events outside SingTel's reasonable control, in which case SingTel may extend these timeframes for a period equal to the period of such delays.

- (b) For the avoidance of doubt, a failure to meet these timeframes caused by events outside SingTel's reasonable control does not constitute a breach of this Schedule or this RIO Agreement.
- 1.7
- (a) If SingTel fails to meet any timeframes in this Schedule relating to the provision of the Connection Service, capacity activation and link activation and the failure to meet the timeframe is solely caused by SingTel, SingTel will provide a remedy to the Requesting Licensee.
  - (b) Such remedy will be in the form of a credit to the Requesting Licensee of the recurring Charges payable for the delayed services over a period equal to the period of the delay.
  - (c) The Requesting Licensee acknowledges that this remedy is a genuine pre-estimate of the Requesting Licensee's loss and will be the sole and exclusive remedy available to the Requesting Licensee for such failure and shall be SingTel's sole and exclusive liability to the Requesting Licensee for such failure.

## **2. CATEGORIES OF CABLE SYSTEMS**

2.1 The terms and conditions of the Connection Service vary according to the Cable System. For this purpose, Cable Systems are divided into 2 categories:

- (a) Group A Cable Systems:
  - (i) APCN2 Cable System – for Co-Location Equipment located at the Katong Submarine Cable Landing Station;
  - (ii) C2C Cable System - for Co-Location Equipment located at the Changi Submarine Cable Landing Station.

The method of access to Group A Cable Systems is shown in Annex 4B.1.

- (b) Group B Cable Systems:
  - (i) APCN Cable System - for Co-Location Equipment located at the Changi Submarine Cable Landing Station;

- (ii) SEA-ME-WE 3 Cable System - for Co-Location Equipment located at the Tuas Submarine Cable Landing Station.

The method of access to Group B Cable Systems is via a Cross Connect System, as shown in Annex 4B.2.

### **3. ORDERING AND PROVISIONING PROCEDURE**

- 3.1 SingTel shall provide the Connection Service to the Requesting Licensee using the same criteria it uses to provide the Connection Service to itself.
- 3.2 SingTel shall process and respond to all requests under this Schedule 4B on a 'first come, first served' basis in the timeframe specified in this clause 3 in respect of the relevant request. SingTel shall process a maximum of five (5) requests for Connection Service per day from all Requesting Licensees under this Schedule 4B (whether those requests are made under clauses 4 to 10 inclusive). Any subsequent requests received by SingTel in excess of this maximum amount shall overflow to the next Business Day, in which case SingTel shall advise the Requesting Licensee of the queue number of the relevant request.
- 3.3 Where a Request for Connection Service is to access the cable capacity of any Third Party on the Cable System, as contemplated by clause 1.3(b):
  - (a) SingTel will not be obliged to activate the capacity unless and until the Requesting Licensee provides to SingTel a copy of a letter of authorisation issued by the Third Party authorising the Requesting Licensee to access the relevant Third Party's capacity;
  - (b) the Requesting Licensee must immediately inform SingTel if such authorisation is varied or revoked; and
  - (c) if the Requesting Licensee's authorisation is revoked, SingTel's obligation to supply the Connection Service will cease immediately in accordance with clause 16.1.
- 3.4 SingTel may reject a Request for Connection Service if:
  - (a) the Request for Connection Service is in respect of a Cable System other than as specified in clause 2.1;
  - (b) the Request for Connection Service is not in the prescribed form specified in this Schedule 4B;

- (c) where the Connection Service is sought in relation to accessing the cable capacity of any Third Party, the Request for Connection Service is not accompanied by the Third Party letter of authorisation specified in clause 3.1(c);
- (d) the Request for Connection Service does not contain all the required information;
- (e) the Requesting Licensee does not hold a licence to the necessary Co-Location Space under Schedule 8D; or
- (f) the Requesting Licensee submits a request under this Schedule 4B which seeks to activate capacity in excess of that specified in the relevant ICO/ACO.

3.5 For all types of Cable Systems:

- (a) the Requesting Licensee shall be responsible for all terminations at its own equipment and for providing the associated cabling and connectors between the Requesting Licensee's Equipment and SingTel's distribution frame in order to facilitate the physical termination of the STM link to SingTel's distribution frame;
- (b) SingTel shall advise the Requesting Licensee of the type of connectors and the length of the associated cables referred to in paragraph (a) for the related capacity that is to be provisioned; and
- (c) SingTel shall provide the distribution frame in connection with the routing of the Requesting Licensee's circuits to the Cable System.

3.6 For Group B Cable Systems, SingTel shall provide the Cross Connection that is necessary only for routing the Requesting Licensee's circuits to the Cable System during the effective period of this Schedule.
