Dear Mr Haire,

CONSULTATION ON ALLOCATION OF 10.5 GHZ FREQUENCY BAND

We refer to IDA's consultation paper on the above dated 22 May 2008.

M1 supports IDA's proposals on the use of the 10.5 GHz frequency band and technical guidelines for deployment of P2P and P2MP radio systems in the 10.5 GHz band, based on ITU recommendations for the allocation of the 10.5 GHz frequency band.

Pertaining to the auction, we reiterate that IDA should allocate the spectrum in pairs of 14 MHz blocks, and seriously consider extending the spectrum rights duration to 10 years in view of the capital investments and need for business certainty as highlighted in our earlier submission of 2 Aug 2007.

We look forward to your response and please do not hesitate to contact us should IDA require any further information.

Yours sincerely,

A handwritten signature in black ink, appearing to be 'Chan Sock Leng', written over a horizontal line.
