BeeInventor

REVOLUTIONISING CONSTRUCTION SAFETY

through advanced IoT solutions to improve efficiency & productivity, reduce downtime

DasLoop

Smart Safety Helmet
With real-time positioning for precise location tracking.

DasTrack

Collision Avoidance
Safety systems prevent accidents between workers & machinery.

DasIoT

Integrated IoT Platform
Seamless integration for live data & safety notification alerts.

Optimise & analyse industrial safety with real-time GPS & sensors to monitor employee health, sense movement & environment, and forewarn danger.

Global Certifications
in over 120 projects.
CNS1336 & EN397 safety standards
