1.0 Introduction

This guide serves as an aid to familiarise with the IMDA Online system to:

- Conduct searches for video games titles
- Declare your video games as 'A' submissions
- Declare your games as 'SD' submissions
- Check your submission status; and
- Conduct searches on the Video Games Classification Database

1.1 Video Games Classification

Video Games Classification covers:

- All games that are to be distributed physically, including but not limited to:
 - Windows PC
 - Macintosh
 - PlayStation 3
 - PlayStation 4
 - PlayStation Vita
 - Xbox 360
 - Xbox One
 - Nintendo Wii
 - Nintendo Wii U
 - Nintendo 3DS
 - Others
- Installation discs of Massively Multiplayer Online (MMOs) Games that are for distribution

The Classification does not cover:

- Games that are only available via Internet download
- Software used primarily for business, scientific, educational or accounting purposes

Video Games Classification adopts a co-regulatory approach:

- Companies declare games using IMDA Online and answer a questionnaire to highlight the content of a game. IMDA will selectively request for rating materials when required.
- Once IMDA verifies and approves the game, you can proceed to distribute the game

Types of Rating

Video Games Classification currently comprises of two ratings:

Mature 18 (M18)

Age Advisory:

- Games that do not fall into the above two ratings need not carry any indicative labels

Mature 18 (M18) rating:

- Restricted rating, only suitable for those aged 18 years and above
- Game must carry an M18 rating label and consumer advice highlighting the contentious area(s) for which the rating was given
- To ensure definition and legibility, the minimum font size for the consumer advice is 10
- For consistency, use the **non-italic** Arial Bold typeface for the consumer advice
- The minimum font size and typeface applies to both stick-on (sticker) labels and advisory that is printed on the in-lay of the game cover
- The consumer advice must be either black text against a white / light-colour background OR white text against a black / dark-colour background
- Age restriction must be enforced by businesses at the point of sale, as per the conditions stipulated in the certificate listing
- Games that contain mature themes, realistic depictions of violence, drug use, nudity and frequent use of strong coarse language, will be classified M18

Age Advisory rating:

- Advisory rating, not recommended for the young
- Games classified with this rating must carry an Age Advisory label, according to IMDA's specifications

- Retailers are encouraged to exercise responsibility and not sell these titles to those below the age of 16 years old
- Age Advisory games may contain moderate level of violence, implied sexual activity, nudity without details, coarse language and incidental depiction of unrealistic illegal drug use

Rating Labels

For M18 titles:

- The rating label should be affixed on the front of the game box, together with the given consumer advice (***see page 6 for example***)
- The M18 rating label will be issued by IMDA

For Age Advisory titles”

- The Age Advisory label is self-printed by the industry, based on specifications provided by IMDA (***see page 7 for example***)
- These specifications are available for download at IMDA's website.

For box-sets, compilations, collections

- Box-sets, compilations or collections that contain more than 1 game title bundled together in a single packaging will only carry a single rating label that bears the highest rating
- Consumer advice need to indicate clearly for each M18 title included in the box-set (***see page 8 to 10 for examples***)

Example of an M18 rating label with consumer advice

M18 Consumer Advice Specifications

Font typeface: **non-italic Arial Bold**

Font minimum size: **10**

Recommended form: **Black text against white / light-colour background OR white text against black / dark-colour background**

2. One of our authorised personnel has left the company and I wish to remove his email from our company profile.

You will be able to change the emailing list after logging in to IMDA Online. Kindly refer to Step 5 of section **2.1 Log in with your company's particulars**. This change is permanent and will be reflected in future submissions. Visit IMDA's website and click on the 'Feedback' link to submit your request.

4. I have submitted additional materials (e.g. video footage, dialogue scripts, game play discs, etc) to IMDA for evaluation. How long will the classification process take?
