ANNEX

1. REBATE PROGRAMME

- 1.1. Subject to **paragraphs 1.3 – 1.6** of this Annex 1, NLT undertakes to grant RL the Rebate in respect of:
- 1.1.1. each active Existing Connection, and
 - 1.1.2. each New Connection which meets the following criteria:
 - (a) The TP for the New Connection installed by NLT in the End-User's Non-Residential Premise; and
 - (b) The Request for each Connection must have indicated the Application Reference ID "[21Reb]" or any other code that the Parties may agree in writing ("**Rebate ARI**"),

PROVIDED ALWAYS THAT the abovementioned Existing Connections and New Connections shall remain active or in-service for a period of not less than twenty-four months from the Effective Date or from the RFS date, respectively ("**Minimum Commitment Period**") and PROVIDED THAT the abovementioned Existing Connections and New Connections are not eligible to receive rebates under the Tariff Agreement for Waiver of Monthly Recurring Charge of Non-Residential End-User Connections for Small and Medium Enterprise End-Users dated 31 August 2020 between the RL and NLT ("**SME Promo**").

Each Existing Connection and New Connection that fulfils the requirements set out in this paragraph shall hereafter be referred to as a "**Qualifying Connection**".

- 1.1A Notwithstanding anything in the 2019 Rebate CA, the RL hereby agrees that all new Non-Residential End-User Connections ordered by the RL in accordance with Schedule 2 of the Approved ICO from 19 June 2021 onwards shall not be considered for any rebates offered under the 2019 Rebate CA.
- 1.2. The RL hereby warrants that Qualifying Connections that are New Connections are genuine new orders submitted by End-Users under Schedule 2 of the Approved ICO, and that these orders have not been submitted to replace the RL's existing Non-Residential End-User Connections that have been terminated or will be terminated for the purpose of receiving the Rebates. In the event that NLT acquires information that leads NLT to reasonably believe that the foregoing warranty has been breached, NLT shall be entitled to terminate this Agreement with immediate effect by giving the RL written notice of the termination without being liable to the RL for damages or otherwise.
- 1.3. Notwithstanding anything in the Agreement, NLT's obligation to pay the Rebate in respect of each Qualifying Connection is conditional upon the RL ordering and activating New Connections which meet the criteria set out in **paragraph 1.1.2** during the Qualifying Period. NLT shall have no obligation whatsoever to pay the Rebate in the event that no New Connections which meet the criteria set out in **paragraph 1.1.2** are ordered and activated during the Qualifying Period (read with **paragraph 1.6**).
- 1.4. Any New Connection for which NLT provides the service up to the FTTB Node of the Non-Residential Premise, or for which the TP was installed in the building riser at the RL's request, shall not receive any Rebate under this Agreement. For the avoidance of doubt, only Qualifying Connections which are New Connections and are provisioned pursuant to orders with 'TP Installed in End User's Non-Residential Premise' will qualify for the Rebate.
- 1.5. NLT has no obligation to grant the Rebate in respect of any Non-Residential End-User Connection

that is ordered by the RL after the expiry of the Qualifying Period, or any New Connection that is provisioned more than two (2) calendar months after the Qualifying Date due to any delay arising out of unforeseen circumstances beyond the control of NLT.

Determination of Rebate

- 1.6. The total number of Existing Connections that the RL is permitted to declare under this Agreement shall be capped at one thousand (1,000). For the purpose of determining the number of Qualifying Connections in respect of which Rebates are payable under **paragraph 1.8**, the active Existing Connections shall not comprise more than twenty per cent (20%) of the Qualifying Connections on the Qualifying Date. In the event that the total number of Existing Connections exceeds this 20% threshold during the period on the Qualifying Date, the number of active Existing Connections that are eligible for the Rebate shall be adjusted such that the ratio of Existing Connections and New Connections remains at 20:80, and the excess Existing Connections shall not be counted when determining the Rebate under **paragraph 1.77** or when calculating the total amount of Rebates payable under **paragraph 1.88**.

The following table illustrates the operation of this **paragraph 1.6** (read with **paragraphs 1.3 and 1.7**):

	A	B	C	
Total no. of active Existing Connections on Qualifying Date	No. of active Existing Connections eligible for Rebate (20% of C)	Total no. of active New Connections on Qualifying Date (80% of C)	Total no. of Qualifying Connections eligible for Rebates on Qualifying Date (100%)	Total amount of Rebates payable
1,000	0	0	0	\$0
1,000	20	80	100	100 x \$200
20	20	80	100	100 x \$200
750	750	3,000	3,750	3,750 x \$400
1,000	1,000	4,500	5,500	5,500 x \$500

- 1.7. Subject to **paragraph 1.6** above, the value of the Rebate that applies for each Qualifying Connection shall depend on the total number of Qualifying Connections that are active on the Qualifying Date, and shall be determined in accordance with the following table (the "**Rebate Structure**"):

No. of active Qualifying Connections as of Qualifying Date¹	Value of Rebate per Qualifying Connection
100 – 999	\$200
1000 – 2999	\$300
3000 – 4999	\$400
≥ 5000	\$500

Rebate Payment Procedures

- 1.8. Commencing from the expiry of the Qualifying Period, NLT shall generate a monthly list of Qualifying Connections that have fulfilled the Minimum Commitment Period, and compute the total amount of Rebates payable for each calendar month based on this list. NLT shall provide the RL with a copy

¹ "Qualifying Date" means the last date of the Qualifying Period, and "Qualifying Period" means the period of twenty-four (24) months from the date on which the Authority approves or is deemed to have approved this Agreement.

of the aforementioned list of Qualifying Connections, and a statement indicating the total amount of Rebates payable for each calendar month within four (4) weeks of end of the relevant calendar month.

- 1.9. The RL shall provide written confirmation of the accuracy of the list of Qualifying Connections and the statement of the total amount of Rebates payable by NLT no later than five (5) Business Days of receiving the same. In the event that the RL fails to provide the said written confirmation within this timeline, the RL shall be deemed to have confirmed the accuracy of the said list and statement, and the RL shall no longer be entitled to seek a review or revision of the said list and statement thereafter.
- 1.10. The full amount of the total Rebates payable by NLT for each calendar month shall be credited to the RL's account within two (2) months from the date of the written confirmation referred to in **paragraph 1.9**, and shall be reflected in the next invoice issued by NLT.
- 1.11. For the avoidance of doubt, the Rebate in respect of each Qualifying Connection shall only be paid out once during the term of this Agreement, and NLT' shall have no obligation to pay the Rebate in the event that an Existing Connection or New Connection remains active for any period that exceeds the Minimum Commitment Period.

2. CONFIRMATION OF EXISTING CONNECTIONS

- 2.1. The RL shall provide NLT with a detailed list of the RL's existing active Non-Residential End-User Connections which were provisioned either to Enterprise Customers or as part of multi-site projects, and for which the RL wishes to receive the Rebate as Existing Connections, no later than two (2) calendar months from the Effective Date. The list shall not list the details of more than 1,000 Non-Residential End-User Connections, and shall contain the following information in respect of each Non-Residential End-User Connection:
 - 2.1.1. ORI;
 - 2.1.2. Address of the site;

In the event that the abovementioned list and declaration is not submitted by the RL within the deadline stipulated in **paragraph 2.1** above, the RL shall be deemed to have waived its right to receive any Rebate in respect of Existing Connections.
- 2.3. In the event that RL has yet to submit both the list and declaration referred to in **paragraphs 2.1 and 2.2** within one (1) calendar month of the Effective Date, NLT shall issue the RL with a reminder to submit the list and/or declaration, whichever is outstanding. Notwithstanding the foregoing, the RL shall be solely responsible for submitting the abovementioned list and declaration and NLT shall not bear any liability for the RL's failure to comply with **paragraphs 2.1 and 2.2** above.
- 2.4. In the event that NLT acquires information that leads NLT to reasonably believe that the declaration referred to under **paragraph 2.2** in respect of any Non-Residential End-User Connections is untrue, NLT shall be entitled to recover any Rebate that has already been paid out, if any, and the relevant

Non-Residential End-User Connections shall no longer be considered as an Existing Connection with immediate effect and without further reference to the RL.

- 2.5. For the avoidance of doubt, the RL shall not be entitled to add or remove any Non-Residential End-User Connections from the list once the list has been submitted to NLT. In the event that any of the Non-Residential End-User Connections submitted by the RL in accordance with **paragraphs 2.1 and 2.2** is subsequently terminated prior to the Qualifying Date, the RL shall not be entitled to replace the terminated Non-Residential End-User Connection with an existing active Non-Residential End-User Connection in the said list, and the terminated Non-Residential End-User Connection will not be taken into account in the calculation of the Rebates pursuant to **paragraphs 1.7 and 1.8**.

- 3.1. The RL shall submit Requests for new Non-Residential End-User Connections during the Qualifying Period in accordance with the procedure set out in Schedule 2 of the Approved ICO, save that each Request must indicate the Rebate ARI.
- 3.2. The Parties agree that NLT shall not be liable for any failure to meet the service activation period set out in Schedule 2 of the Approved ICO in respect of Qualifying Connections which are New Connections. For avoidance of doubt, the RL shall not be entitled to any claims pertaining to SAP Rebate in relation to any New Connections provided by NLT pursuant to this Agreement.

- 4.2. NLT shall be entitled to review and revise the Rebate Structure at its sole discretion in the event that IMDA reviews the prices of the Mandated Services offered by NLT pursuant to the terms of the Approved ICO. NLT shall notify the RL of the revised Rebate Structure in writing, and the revised Rebate Structure shall take effect two (2) months from the date of such notification, subject to any direction by IMDA.
- 4.3. In addition, NLT will review the Rebate Structure periodically and may revise the Rebate Structure at its discretion following such review, which shall not take place more than once during each subsequent two-year period during the term of this Agreement, commencing from the Effective Date. In the event there is a Rebate Structure revision, NLT shall notify the RL of the revised Rebate Structure in writing and the revised Rebate Structure shall take effect two (2) months from the date of such notification.
