Subject: Technical Specifications for Short Range Devices - Revision
Date: Saturday, 6 October, 2012 12:05:46 AM
Attachments: [image005.png](#)

Dear iDA,

We want to thank you for iDA continuous effort making its test standard more aligned with international standards to reduce trade barrier. Especially in recent proposed change, Lot of inductive loop radio manufacturer will be very excited to know now it is the requirement in 16-150 KHz is aligned with ETSI standard.

Best Regards,
Snell Leong ,
Certification Technical Manager.
