

LEVEL ONE

creative spaces for online creators

Let your creativity flourish and turn your ideas into reality with the right tools and training, all in one place.

hot-desking area

Discuss, brainstorm or get work done at the user-friendly hot-desking area.

thematic sets

Shoot your videos in a "Kopitiam", a "train carriage", a "1950s diner" or stage a talk show with three large projection screens as backdrop! This area also functions as a place for discussions or simply for chilling out after a busy day of video production.

interchangeable backdrops

Create different scenes with the six interchangeable backdrops that will transport you to different places - from a tranquil scenic landscape to a metropolitan city.

fixed stage with wall-to-wall screen and digital projection facility

Produce live talk shows or performances on a stage, equipped with three projectors and a wall-to-wall screen.

audio recording studio and editing room

Record your voice-overs, mix soundtracks, or even your three-piece band here. This room is equipped with essential hardware and software that meets your audio recording and post-production needs.

video editing suite

Preview, edit and add effects to your videos in this video post-production suite.

production studio with green screen

Get creative in the professional video production studio with facilities such as green screens, virtual video system, professional cameras and camera crane system.

changing and makeup room

Need to freshen up your style for your next shoot? Come here for a change of attire, style your hair and refresh your makeup. You can even record your make-up tutorials and beauty online content here.

functional kitchen and pantry

Aspiring to set up your own food channel? The functional kitchen built for cooking videos is dressed up in three interchangeable themes - modern, country and Peranakan. It also serves as a pantry for creators who are using the collaboration area.
