Cyber security tips *(Credit: Facebook)*

- Pick a strong password such as a combination of at least six numbers, letters and punctuation marks (like ! and &) for your account and set-up two-factor authentication (2FA) for additional account security
- Emails from Facebook about your account always come from fb.com, facebook.com or facebookmail.com. You can always visit www.facebook.com or open your Facebook app to check for important messages.
- Do not answer messages that ask for your password/credit card information or trust messages demanding money or threaten to delete or ban your account.
