

Singapore IT standards established

S/N	STANDARD NO.	STANDARD TITLE
1	SS 468:1999 (2021)*	Specification for stored value card application
2	SS 507:2015	Information and communications technology disaster recovery services
3	SS 518:2014 (Incorporating Amendment 1, January 2019)	Specification for contactless e-purse application (CEPAS)
4	SS 529:2006 (2023)*	Specification for smart card ID
5	SS 564-1:2020	Sustainable data centres Part 1 : Energy and environmental management systems
6	SS 564-2:2020	Sustainable data centres Part 2 : Guidance for energy and environment management systems
7	SS 584:2020	Specification for multi-tier cloud computing security (MTCS)
8	SS 587:2013	Management of end-of-life ICT equipment
9	SS 611:2016	ISO 20022 corporate-to-bank payment initiation and payment status
10	SS 695:2023	IoT interoperability for Smart Nation
11	SS 697:2023	Deployment and operation of data centre IT equipment under tropical climate
12	SS 711:2025	IoT security for Smart Nation – Concepts and common requirements

13	SS 712:2025	Tiered cybersecurity standards for organisations
14	SS 714:2025	Data protection trustmark
15	SS 715:2025	Energy efficiency of data centre IT equipment
16	SS 726:2026	Liquid cooling in tropical data centres
17	SS ISO/IEC 14443-1:2021	Cards and security devices for personal identification — Contactless proximity objects — Part 1: Physical characteristics
18	SS ISO/IEC 14443-2:2021	Cards and security devices for personal identification — Contactless proximity objects — Part 2: Radio frequency power and signal interface
19	SS ISO/IEC 14443-3:2021	Cards and security devices for personal identification — Contactless proximity objects — Part 3: Initialization and anticollision
20	SS ISO/IEC 19794-1.1:2021	Information technology - Biometric data interchange formats - Part 1: Framework
21	SS ISO/IEC 19794-1.2:2021	Information technology - Biometric data interchange formats - Part 1: Framework
22	SS ISO/IEC 19794-2.1:2021	Information technology - Biometric data interchange formats - Part 2: Finger minutiae data
23	SS ISO/IEC 19794-2.2:2021	Information technology - Biometric data interchange formats - Part 2: Finger minutiae data
24	SS ISO/IEC 19794-4.1:2021	Information technology - Biometric data interchange formats - Part 4: Finger image data
25	SS ISO/IEC 19794-4.2:2021	Information technology - Biometric data interchange formats - Part 4: Finger image data
26	SS ISO/IEC 19794-5.1:2021	Information technology - Biometric data interchange formats - Part 5: Face image data
27	SS ISO/IEC 19794-5.2:2021	Information technology - Biometric data interchange formats - Part 5: Face image data

28	SS ISO/IEC 19794-6:2021	Information technology - Biometric data interchange formats - Part 6: Iris image data
29	SS ISO/IEC 19794-13:2021	Information technology - Biometric data interchange formats - Part 13: Voice data
30	SS ISO/IEC 27001:2023 +A1:2024	Information security, cybersecurity and privacy protection – Information security management systems – Requirements
31	SS ISO/IEC 27002:2023	Information security, cybersecurity and privacy protection – Information security controls
32	SS ISO/IEC 27701:2026	Information security, cybersecurity and privacy protection – Privacy information management systems – Requirements and guidance
33	SS ISO/IEC 21878:2019	Information technology – Security techniques – Security guidelines for design and implementation of virtualised servers
34	SS ISO/IEC 42001:2024	Information technology – Artificial intelligence – Management system
35	TR 62:2018	Guidelines for cloud outage incident response (COIR)
36	TR 69-1:2019	Video analytics within video surveillance systems Part 1: Reference architecture and interoperability
37	TR 69-2:2019	Video analytics within video surveillance systems Part 2: Selection, installation and benchmarking
38	TR 82:2020	Guidelines for Cloud Native security
39	TR 91:2021	Cybersecurity labelling for consumer IoT
40	TR 99:2021	Artificial intelligence (AI) security – Guidance for assessing and defending against AI security threats
41	TR 139:2025	Artificial intelligence (AI) use cases

42	TR 147:2026	Cybersecurity practices for large language model applications
----	-------------	---

* Mature standard – Where SSs are deemed to be stable, i.e. no foreseeable changes in them, they will be classified as “Mature Standards”. Mature Standards will not be subject to further review, unless there are requests to review such standards.
