Professor Toh Chai Keong
Assistant Chief Executive (Engineering & Technology)
Infocomm Development Authority of Singapore

Professor Toh Chai Keong is appointed as the Assistant Chief Executive - ACE (Engineering & Technology) of Infocomm Development Authority of Singapore (IDA) and will assume official duties on 8 September 2014.

ACE Toh is a Singaporean with more than two decades of extensive experience in senior leadership and technology experience across multiple countries including Singapore, the US, Japan, Korea, Taiwan, Hong Kong and China, serving in roles which include managing key DARPA defence research projects at major US companies such as ALICO Systems and TRW Systems. He has also led technology roadmaps, product development and R&D patents on mobile networking technology.

ACE Toh joins IDA from Singapore Institute of Technology (SIT) where he was a Professor and Programme Director (Telematics). Prior to his role, he was also Senior Director and Chief Technology Advisor at ALICO Systems in California where he worked on R&D and product development.

On the academic front, ACE Toh has been the Chair Professor in various global universities including the University of London, Technical University of Valencia, National Tsinghua University Taiwan and has also been recognised with medals and awards from IEEE and IET for significant technical contributions. He is also an alumni of Singapore Polytechnic and is well-placed to help groom and mentor young Singaporean engineers.

ACE Toh graduated from the University of Manchester with a first class Bachelor of Engineering (Electrical Engineering) as well as a PhD in Computer Science from the University of Cambridge.
