

Harnessing AI to Transform Our Economy

Prime Minister Lawrence Wong outlined plans to harness AI as Singapore's strategic advantage to:

- Drive transformation across key sectors
- Help every worker and business thrive in an AI-enabled future

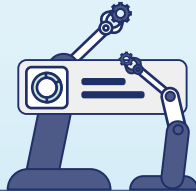

National AI Impact Programme

As part of the National AI Strategy 2.0, the programme will empower enterprises to be AI-enabled, and workers to be AI-fluent.

Over the next 3 years, we will

Support **10K**

Enterprises to adopt and integrate AI into their business.

Equip **100K**

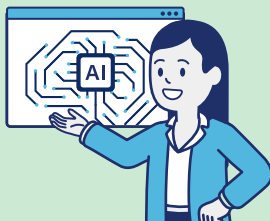

Workers across the economy to upskill and become 'AI Bilingual' workers.

NEW

Digital Leaders Accelerator Bootcamp

Turbocharge digital capabilities development in leadership and enterprises.

ENHANCED

Increase range of AI-enabled pre-approved solutions with grant support

ENHANCED

TechSkills Accelerator (TeSA) Programmes for:

Legal and Accounting professionals to use AI to transform workflows

NEW

Tech workers to deepen AI skills to orchestrate complex systems and workflows

There are also initiatives by **MOM and MOE** to equip Singaporeans to be AI-ready
