

# AI Solutions with High ROI for Semiconductor & Advanced Manufacturing

Proven AI solutions and manufacturing technologies to help businesses achieve zero defect & more sustainable manufacturing

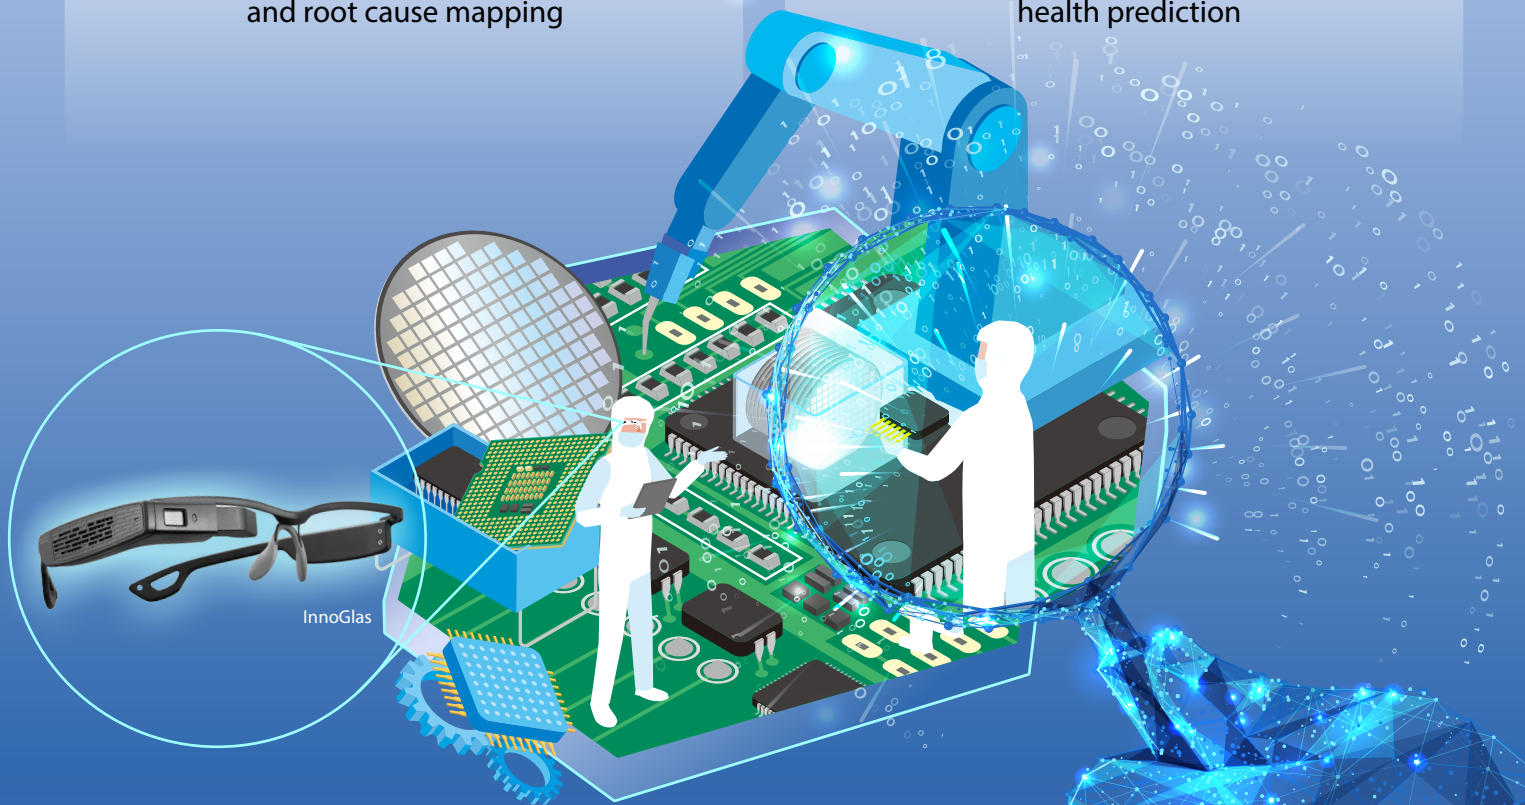

## Wavelength AI

Offers real-time automated defect inspection, categorisation, and root cause mapping

## AI@line

Enables centralised equipment control, automated AI analysis and machine health prediction

### Benefits

- Improve human efficiency up to 90%
- Industry-proven solutions
- Immediate impact, guaranteed ROI
- Machine learning-driven continuous improvement
- Holistic 3W approach: Waste reduction, Workforce efficiency, Worry-free operation
