Programme fee	\$66 per track for SCCA members who are Singapore Citizens or Permanent Residents. In-house legal professionals who do not have an existing SCCA membership can enrol as Basic Members to register for the programme.
Certification	Upon completion of either or both tracks, learners will receive a Certificate of Completion and an AI Fluency Badge.
For more information and to register for AlxLegal by SCCA	Registration of interest for AlxLegal by SCCA: https://scca.glueup.com/event/aixlegal-by-scca-189797/. The programme is tentatively scheduled to commence in Q12027.

Designed for in-house legal work

AlxLegal by SCCA recognises that in-house legal and allied legal professionals have different day-to-day responsibilities from lawyers in private practice. As such, when rolled out in 2027, it will be organised into two learning tracks, Generative AI and Agentic AI, to support learners at different stages of AI adoption.

Each track is delivered through a blended learning format comprising:

- Three 1.5-hour live online webinars
- One 2-hour AI tools demonstration session

- One 2-hour in-person, hands-on workshop applying AI to realistic in-house scenarios

Learners will explore AI tools within an in-house context.

Learning beyond the classroom

Learners will also gain access to an online learning community that supports continued learning beyond the formal curriculum. The platform enables participants to:

- exchange AI workflows and practical experiences with peers;
- discuss real-world legal use cases;
- access curated prompts, AI tools and workflow resources; and
- keep up with evolving best practices in legal AI.

Trainers

Training is delivered by practitioners with expertise in law, in-house work and technology, providing learners with practical guidance on applying AI within in-house legal functions.
